## Academic Advisement

Academic advisement at Morehouse College is designed to assist students in making appropriate and timely decisions about the course of study in General Education and in the major. To promote “a coherent course of study” among freshmen and sophomores and to guide students in general when selecting courses, General Education promotes its checklist: Registration and Advisement Map. Students and their advisers should continue to review Morehouse *College's Catalog* for any current information on academic policies and procedures (e.g., how advisers are appointed, a normal course load, transfer credits, and what constitutes academic honesty and progress), but, when planning a course of study, particularly in the core studies, students and their advisers are encouraged to use General Education's Registration and Advisement Map.

## How to use General Education's Registration and Advisement

**Map:** Based on English course placement, students select and download the appropriate Registration and Advisement Map. A checklist, the Registration and Advisement Map allows Students (and Advisers) to navigate through the required and elective coursework in General Education.
