Program Description
This is an opportunity for faculty/student mentorship research through the Howard Hughes Medical Institute Program. By participating in this program students are expected to improve their research skills which will better prepare them for graduate level studies.

Requirements:
- Student at Morehouse College who has completed at least 1 semester of the Sophomore year
- Recommendation by a faculty mentor (with whom you will conduct research)
- An overall GPA of 3.2 or higher and a science (biology, chemistry, physics, mathematics, computer science, and psychology) GPA of 3.0 or higher (Official transcript required)
- Participation in the summer research program at Morehouse College (June 1-July 30, 2009)
- Presentation of research at the Division of Science and Mathematics Interdisciplinary Conference

Application Process:
Application is available online. Application, recommendation letter, and official transcript must be received by the deadline.

**Deadline:**
**September 25, 2009**

Submit to:
Department of Biology, Nabrit Mapp McBay Hall
Mailbox of David B. Cooke III, Ph.D.
